Nearly two years ago the Beth Din of America issued a *Seruv* (Attached) against Rabbi Shachar Luz for failing to appear before the Beth Din of America or an alternative Beis Din to adjudicate his wife Ilana Luz's request for a Get.

This past summer the Beth Din of the Chicago Rabbinical Council endorsed that *siruv* and spelled out the Halachic ramifications of the *Seruv* (Attached), including:

- No Shul should allow him to attend
- He should not be hosted for Shabbos or Yom Tov meals
- No one should have any type of business dealings with him

These restrictions remain in place until such time that Rabbi Luz complies with the summons of the Beth Din.

It is incumbent upon all members of the Chicagoland Anash community to fully observe these Halachically-mandated restrictions.

The Association of Chabad Rabonim of Illinois calls upon Rabbi Luz to respond to the Beth Din as is required by Torah. It is very distressing that this Gevurah-type treatment is being made necessary by his conduct, and we fervently hope and pray that speedily Chesed, peace and harmony shall prevail.

*It is imperative that the Crown Heights community
also adheres to these restrictions.
