### To Whom It May Concern:

Without any intention of taking a side in this case or stating who is correct or not; I have already told the father (of Chanoch Lebovic) that the "Heter" his son received from the so called "Berdichever Beth Din" and Rabbi Abrahami is worthless (even if his claims are right) and there is no היתר for him to get married when his wife wants a Get, as it is written in the תשובות of Harav Moshe Feinstein. **He should choose a ב"ד הגון that רוח חכמים נוחה הימנו to issue the Get.**

You may quote me as saying he has no היתר to get married as long as he does not give a "Get" to his wife.
